

Guidelines for use of the Reach Riders Group Arena

We feel very privileged to have this facility in our village and ask members to consider the safety of horses, riders and spectators whilst using the arena, by adhering to the guidance below

Safety is paramount, but riders use the arena at their own risk and the committee bears no responsibility for injuries to horse or rider

Members must have their own horse and rider insurance, public liability and personal accident

Use of the arena is limited to fully paid up members only

Anyone working a horse (including lunging) must be a member

Spectators are asked to stay to the outside edge whilst horses are being ridden, unless assisting with the jumps

Hats must be worn and tack should be in line with affiliated societies (BHS, Pony Club, BE, BD, BS etc)

All horses must be under control at all times

Please leave the arena as you have found it. If any damage has occurred, or you discover an issue, please notify a member of the committee

We don't currently run a booking system, so please respect other riders when multiple horses are being ridden in the arena

Respectful behaviour to other members and members of the committee, or anyone associated with the group, including contractors, is expected at all times

The code for the arena gate is 2020. Please do not share this with anyone else who is not a member

In case of an emergency

The code for main gate to the 24 acres is 2497. This will allow access for emergency vehicles to the arena

We recommend you download the "What 3 words" app. This is used by all emergency services to give accurate locations, within 2 metres. The "What 3 words" location for the arena is [clots.firepower.nutrients](https://www.what3words.com/0250-0250-0250/clots.firepower.nutrients)

If you need assistance at all, please feel free to contact a member of the committee
